

16 September 2020

Dear Parents and Carers

Students having been working really hard over the recent weeks, getting back into habits of learning within the academy. We have been really impressed with their motivation and dedication to achieving in these challenging times.

We recognised that the home learning which students completed over the lock down period left different students in different places within their learning. This is why we made the decision to monitor, review and evaluate all students learning over the initial six weeks of term 1, prior to setting any additional home learning.

During the half term break, we are providing a combination of in school interventions and remote interventions on google classroom.

The interventions that are taking place in school are open to all Year 11 students who study these subjects.

Monday 26th October – Travel and Tourism with Mrs Temple at 9am-1pm

Thursday 29th October – Sports Science with Mrs Turnbull and Miss Radley at 9am -1pm

All other subjects will set work for students on google classrooms. Any resources that students need for this work will be given to them by their classroom teacher before they leave for the half term break. Please support your child in completing this work over the half term break as well as finding time to rest and relax.

Further to my letter on 9.10.20, home learning will be in place as of Monday 2nd November all through google classrooms. Please refer to the link below for the Year 11 home learning timetable.
